The image shows a screenshot of the Gerix WiFi Cracker application interface and a terminal window. The application window has a menu bar with 'Welcome', 'Configuration', 'WEP', 'WPA', and 'Fail'. The main content area is titled 'Welcome in WPA Attacks Control Panel' and contains sections for 'General functionalities', 'Functionalities', and 'Tests'. A red arrow points to the 'WPA attacks' button. The terminal window shows the output of the 'sniff_dump --bssid' command, displaying network statistics for channel 11.
